

We often receive complaints and questions regarding potholes on streets within our community. Many times these streets are ones that are maintained by the Kentucky Transportation Cabinet rather than the City of Murray. There are several streets and roads in our community that do not belong to the City of Murray. Below you will find a list of those roadways. Should you have a complaint about maintenance on the following roads please call 270-761-CITY and one of our volunteer community liaisons will assist you with reporting it to the KY Transportation Cabinet.
